

JOB DESCRIPTION

Grain & Malt Ingredient Manager

Location: Glen Mills, PA

Salary: Negotiable

Bonus/Incentive Eligibility: Yes

Benefits: Yes

Shift: This full-time (exempt) position will primarily be Monday through Friday each week, although specific times will be determined based on the needs of the business. The job may also require occasional evening and weekend work.

Description: Responsible for all grain and malt ingredient production, including but not limited to:

- Malt ingredient production, custom malt production, and specialty malt ingredient production
- Homebrew kit commercialization in collaboration with Beverage Manager
- Providing grain/malt information to Marketing Director as necessary
- Completing GMP production batch records and updating production databases
- Inventory management, production planning, and coordination with other team members to ensure demand forecast is met
- Farmers market operations and procurement/fulfillment operations support from time-to-time based on the needs of the business
- Other miscellaneous tasks as required, including special event support (ex. annual Malt-A-Palooza & Grain/Malt Symposium)

Education: BS or BA desired in agriculture, sales, marketing, or a related field

Required: 21 or older. Candidate must be able to follow detailed instructions. Exceptional organization skills and communicates well with others. Proficient with MS Office 365. This job requires physical capabilities to carry products and supplies regularly >25 lbs.

Desired: The ideal candidate has prior experience with farming, brewing, distilling, malting, or cooking/baking. Experience in operations management under regulated food/beverage manufacturing, packaging, and warehousing environments using cGMPs also required. ServSafe and RAMP certifications desired. Shipping and distribution/logistics experience a plus!

About Us: Deer Creek Malthouse was founded in 2012 as the first commercial malting operation in Pennsylvania since prohibition. We produce high quality, flavorful ingredients using locally grown grain for use in beer, spirits, and food. The company
